===== The Space Shuttle is NASA's space transportation system. It consists of a crewed space plane and a large external cargo bay. The Space Shuttle Orbiter has three solid rocket boosters and its main engines can lift off the orbiter and push it into space. It can also take off and land like an airplane. In addition to crew and cargo, the shuttle can carry satellites, payloads and experiments in its external cargo bay. It has also been used to carry the Hubble Space Telescope into orbit. Features of this space shuttle screensaver:

===== 1) Images of the shuttle will appear in random order. 2) The shuttle images shown in this screensaver are not in any specific order, and nor are they copyrighted by NASA or ESA. The latter ones are pre-rendered stock video or still images taken from the ESA web site and ESA's ESA/NASA BBS. 3) Normal startup time is 2 - 20 seconds. If you are using Windows 95, 98, ME or NT, if you click Start > Run, then type'screensaver', you'll see the runscreen. 4) If you are using Windows 2000, XP, Vista or Win 7, just run the screensaver from Start > All Programs > Screensaver > Shuttle Screensaver 5) Windows 95, 98, ME or NT: You may get a pop-up message as the screensaver starts that says something like this: "Windows 95, 98, ME or NT: The requested action was not completed. An extension may help." Press the OK button in that dialog box. Now press the OK button on that screensaver's dialog box. 6) You can get both the "Round Trip" and "One Way" options for the shuttle. Just use the [EXIT] button, or go to: > Start > Settings... > Screensaver Settings ...and check or uncheck the boxes for [Round Trip] and [One Way]. You can also press [0] to restart the program at any time. 7) You can choose any image as your wallpaper background. Just insert the picture's path name, e.g. C:\asa\sts\screensavers\sts_screensaver_109034_default_ 8) If you like this screensaver, you can make your own versions by downloading the source code from:

This mod doesn't currently have any known (to me) compatibility issues, but please note that it was made by an unofficial mod author and should be compatible with other unofficial mod authors' creations. Installation: If you are on an older version of the game and haven't used a modder pack before, be warned that this mod alters a lot of files in the game's data folder. This means that you will need to uninstall any mod you are using on that game and then install this mod after deleting the Mods folder. If you are having problems with this
